ACTIVITY PROGRAMME

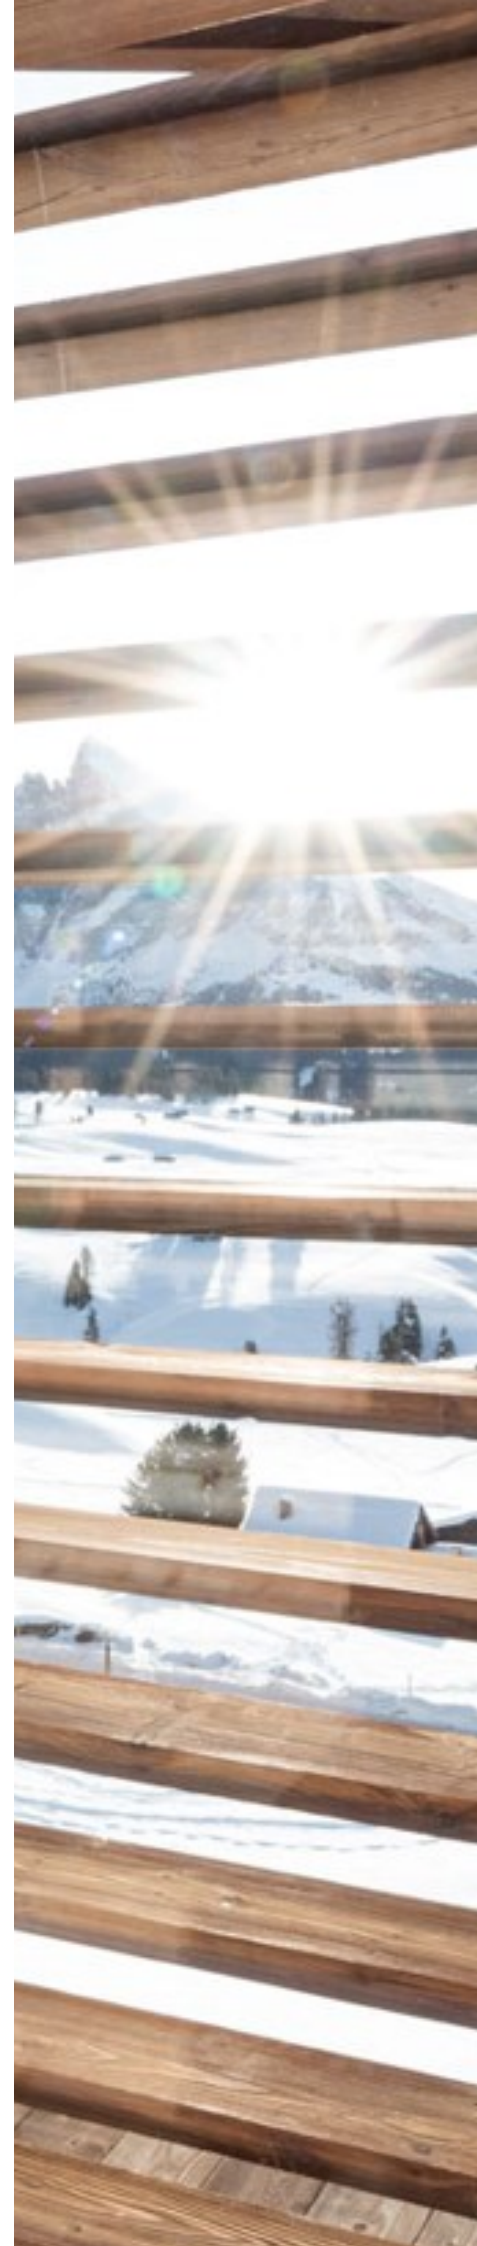

WINTER

Mind and body in perfect unison. It is a regal feeling to simply exist against such a backcloth: The sight of the white winter landscape is sheer relaxation, while the body has everything it needs to find release. Almost endless cross-country ski trails, **miles of perfect pists**, countless snowshoe walks through the Sciliar-Catinaccio Nature Park.

The ADLER Lodge ALPE has a modern **ski rental centre**, with technical equipment of last generation. You can rent downhill and cross-country skis, snowboards, ski boots, snow-shoes and sleds. We recommend to book the ski equipment before your arrival.

SUMMER

Awakened by the rays of the sun. From afar the song of the birds is carried on a gentle summer breeze. It is time to absorb the light of day and swing into action. With the cow bells warmly ringing and the crickets quietly singing, Alpe di Siusi offers **three hundred and fifty kilometers of walks to idyllic spots**. From the doorstep of the Mountain Lodge, you can walk through lush green meadows and climb fabled peaks for as long as your legs will carry you. Plus mountain biking trails for all levels of ability. A state beyond time. In the rhythm of summer on the Alpine pasture.

F & B

GOURMET

The chef at ADLER Lodge ALPE is **Denny Mair** who is defined by a style that is both creative and authentic. He focusses on **quality products from South Tyrol**, directly sourced from local farmers, and his goal is to create something special with every day ingredients.

The use of local ingredients supports local farmers and producers and reduces carbon emissions by avoiding delivery miles. The resort serves mountain fresh water (still and sparkling) to reduce the use of plastic bottles.

LODGE ALL-INCLUSIVE ARRANGEMENT

Also in this Lodge the "**all inclusive**" formula is valid, which **includes all meals** and a **large selection of drinks and wines** throughout the day: your days will start with an Alpine **breakfast** including fresh specialities, either homemade or from the local farmers whenever possible. We serve a **light lunch** at noon and a traditional South Tyrolean **snack in the afternoon**, which you can enjoy on our sun terrace. At dinner, visit our fine panoramic restaurant to sample **gourmet specialities** inspired by the local cuisine.

To round off your journey into the South Tyrolean culinary landscape, we serve a complimentary selection of local beverages, including fruit juices, speciality beers, premium wines and fine spirits – available to you all day long.
